github.com/Prashanth2957

Summary

Motivated and detail-oriented Data Science student with hands-on experience in Machine Learning, Deep Learning, NLP, and Data Analysis. Developed end-to-end projects such as a Heart Disease Predictor, Movie Recommendation System, and Fake Brand Detection Model, showcasing the ability to work with real-world datasets. Strong foundation in data preprocessing, model building, and extracting actionable insights from data. Contributed a custom dataset to Kaggle, reflecting practical knowledge in data collection and dataset preparation. Seeking opportunities to leverage technical and analytical skills to solve impactful business and research problem

Experience

Python Internship, RKG Technology June 2024 – present

- Gained hands-on experience in Python programming, including data structures, file handling, and basic automation.

Education

Vardhaman College of Engineering, Computer Science Engineering (Data Science) in CSD July 2024 – May 2027
– Hyderabad, Telanga

Kshatriya College of Engineering, Diploma in Computer Science Engineering – Ar- Sept 2021 – May 2024
moor ,Nizamabad

Projects

Heart Disease Prediction

- Heart disease is one of the leading causes of death worldwide, and early detection can significantly reduce the risk and improve patient outcomes. This project uses machine learning

Fake Brand Detection Using Deep Learning

- I successfully completed a project titled “**Fake Brand Detection Using Deep Learning.**” The main objective of this project is to identify counterfeit branded products using computer vision and deep learning techniques. Counterfeit products are a ma

Movie Recommender System Using NLP

- Developed a Movie Recommendation System that suggests similar movies based on content analysis using Natural Language Processing (NLP). The system processes movie metadata such as overview and keywords.

Skills

Technical Skills: C, Java, Python, Machine Learning, Deep Learning, Natural Language Processing (NLP), Excel, Power BI, Jupyter Notebook, Google Colab, VS Code, Git

Certifications

Exploring and Deploying AI :From EDA to Generative and Agentic Systems – Vard- Aug 2025
haman college of engineering

NPTEL – Indian Institute Of Technology Roorkee May 2025

Introduction to generative AI and agent – Microsoft Mar 2026
